Comment, if any:

## Student's Feedback Session- 2020-21

Q. No.	Questions
1	Efficiency of teacher in Teaching and Learning
2	Efficiency of teacher in making the course interesting and attractive
3	Whether the teacher is successful in his exercise to relate environment with the subject concerned
4	Whether the teacher is successful in making relationships of the subject matter with other subjects
5	Beside teaching, whether the teacher is ready to respond to discuss of other subjects by students
6	whether the teachers emphasized upon e-learning the ideas of students in other subjects by holding quiz, spot examination, seminar etc.
7	whether the teacher is interested to know if the students are able to understand his/her teaching
8	The depth of knowledge of the teachers
9	Their dutifulness and eagerness of the teacher for his profession
10	The overall performance of the teacher

**Suggestion: -**

The entire process of feedback demonstrates a new approach towards Teaching-Learning process in respect of all teachers. The above diagram clearly shows that the overall performance in the Teaching-Learning process has been found satisfactory in all learning experiences.

However, the level of performance is increasing year by year. The rate of percentage in average and below average is seen less.
